Job Title: MIG/MAG Welder - Vehicle Maintenance Project

Locations: Pan India, On Site

Overview:

The MIG/MAG Welder will be responsible for performing welding tasks on a vehicle maintenance project. The position requires the ability to read and interpret technical drawings and specifications, as well as operate welding equipment to join metal parts.

Key Responsibilities:

- Define project scope, goals, and deliverables in collaboration with stakeholders.
- Develop detailed project plans, including timelines, resource requirements, and budget.
- Monitor project progress and make adjustments as necessary to ensure on-time delivery within budget.
- Manage project risks, including identifying potential issues, developing mitigation strategies, and communicating risks to stakeholders.
- Coordinate project team members and ensure that all team members are aware of their responsibilities and are working together effectively.
- Facilitate regular project meetings and report on project progress to stakeholders.
- Manage project documentation, including project plans, status reports, and budget updates.
- Ensure that all project deliverables meet quality standards and customer expectations.

Qualifications:

- Bachelor's degree in engineering or a related field.
- 5+ years of experience in project management, preferably in the automotive or vehicle maintenance industry.
- Proven experience in managing complex projects with multiple stakeholders.
- Strong leadership and communication skills, with the ability to motivate and manage cross-functional teams.
- Excellent problem-solving skills and the ability to adapt to changing circumstances.
- Knowledge of project management software, such as Microsoft Project or similar tools.
- PMP certification is a plus.
- If you are a highly motivated individual with a passion for leading complex projects, we encourage you to apply for this exciting opportunity.
