

JOB DESCRIPTION

Company Name: AITMC Ventures Ltd.

Job Title: Drone Pilot / UAV Operator

Qualification: DGCA approved drone pilot

Remuneration: As per Market standards (Rs.18,000 – Rs. 25,000)

Job Summary:

We are seeking experienced and licensed drone pilots for precision agricultural spraying. Key responsibilities include:

- Planning and executing safe drone flight missions and operating advanced agricultural drones with precision spraying systems.
- Conducting pre-flight checks, calibrating equipment, preparing chemical/nutrient formulations, and maintaining detailed records of operations happening in the flights made for agricultural related spraying.
- Monitoring weather, following aviation regulations, and maintaining and troubleshooting drone equipment during the spray flights.
- Working with farmers, and field teams to tailor spray applications to crop needs and accordingly the spray on the land allocated.

The ideal candidate should have a valid drone pilot license, experience in agriculture or precision farming, good decision-making skills, and proficiency in flight planning software and data analysis tools. Knowledge of crop protection, nutrient management, and sustainable farming practices is a plus.

Qualifications:

- **Certifications:** DGCA certified Remote Pilot Certificate
- **Fitness Certificate** from an authorised Doctor
- **Experience:** Proven experience as a drone pilot; experience in a specific industry (e.g., agriculture) may be required.

Working Conditions:

- **Environment:** Outdoor work with exposure to varying weather conditions; office work for data processing and reporting.
- **Travel:** May require travel to different locations for flight missions.

Location of work:

The Location of work include the pilot to work on the land in these states and districts.
